About Us:

- Mahendra Technosoft emerged in 2014 as a software development company, down the lane started experimenting with different verticals and currently specializes in Software Development, Mobile App Development, Data Analytics, Data Migration, Cyber Security solutions , Content Auditing Services, etc and has been shaking up the hardware-centric networking market through its innovative solutions. Pune based, the company chooses to work with the channel in an entrepreneurial fashion, allowing partners to engage with the company without structured metrics. The company is a multi-vendor platform that lets users choose services to deploy, and then simplifies the management and troubleshooting of the environment using analytics and telemetry.
